

## **Diamond Club Rewards**

To avoid missing out on any Diamond Club reward wagering credits, please make sure your card is always working and registering in the machines. If your card has been properly inserted, your membership number will briefly appear on the tote screen and also print on the ticket just below the total amount wagered. If your card is not working properly, the Gift Shop will issue a new card. If a particular machine is not accepting your card, please let the Gift Shop know the machine number so we can get it fixed ASAP.

It is the players' responsibility to properly insert the card into the card reader on the tote machine and verify its acceptance. This facility will not make any wagering credit adjustments for improperly inserted cards, cards that do not read for any reason (including worn or mutilated), using a previously issued card, or any other similar type of error.
